To whom it may concern

February 8 2012

Reference Gene Oldham

Mr Oldham is a member of my parish and has been for the past 50 years. He is the organizer and action person in my Maintenance group looking after all the Building repairs and maintenance of the parish Campus.

He renovated my office block with a savings to the Parish of \$50,000 well within the time limits that were required.

He has over the years been instrumental in assisting several parishes with their building renovations.

He is absolutely trustworthy and will always be looking to save the parish un-necessary expense.

I did not require him to be bonded for my renovation which was over a quarter million dollars because I was so sure of his integrity and concern for the good of the parish.

I would recommend him to any Parish to carry out their renovations and or New Buildings no matter what the cost, knowing that his conscience would never allow him to do anything but his best.

I am so sure of all the above that I would recommend him to the Diocese as a Staff member helping and advising Parishes on the best methods to accomplish their needs.

Yours truly in Christ.

Fr George Foley
